

TCM Forklift Part

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of each global trade. Transporting industrial goods takes place each and every day on our busy world. Originally innovated as industrial vehicles during the 1930s in the U.S., forklifts gained popularity after World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these machines spread internationally.

In nineteen forty nine, started by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Now the business is simply known as TCM Corporation. Over the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation with the trade. TCM began constructing forklift manufacturing locations outside of Japan during the 1980s and is presently engaged in forklift manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly manufactures several models of industrial forklifts with over 50 years of accumulated expertise and technology, making their products used and recognized all over the globe. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aims to become a world-class leading business.
