

Meritor Parts

Meritor Parts - The Meritor Business is a premier global dealer established upon one hundred years of tradition of service and quality. Meritor focuses on integrated systems together with a range of modules and components to the original machinery makers and aftermarket equipment in the transportation and industrial sectors.

Meritor values the requirements of all their clients to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their worldwide operations. Meritor starts with a philosophy which values diversity of people and their broad thought processes. Operating in 19 countries and hiring more than 11,200 individuals, Meritor promotes innovation and collaboration amongst a team of experienced experts.

By just hiring future focused workers, Meritor strongly thinks these top-caliber workers will be able to rapidly adapt to changing surroundings and exhibit the performance and commitment needed to achieve results in the competitive materials handling market. The company empowers their teams to make sound business decisions so as to enhance the overall success of the business. In return, Meritor offers their workers various chances for professional and personal growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This consists of drivelines, axles, braking and suspension systems meant for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is even responsible for supporting the requirements of all their global engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group which is dedicated to ensuring optimum growth at their aftermarket distribution facilities and production plant which are located on 5 continents and in 19 nations.

They have their supplier network which is specifically located to be able to support the development of the business. Each regional team has globally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making within each and every part of the company. The DFSS or also referred to as Design for Six Sigma ensures product reliability in every region. The team is likewise included transactional Green Belts who make use of Six Sigma tools to business methods and apply lean methods.
